

A multi-functional sliding bed trailer suitable for carrying a wide variety of loads. Suitable applications include transportation of wheeled and tracked plant, forklifts, access platforms, coach and vehicle recovery, ISO containers and general haulage.

## THE 'OLDBURY SLIDER'

*MOD 1983 model, still in service today.*

*"A wonderfully, flexible trailer acting as a semi low loader, a flat and a container carrier. A great work-horse for over 20 years."*

*RAF Stafford.*

*MOD 2003 model, 26 tonne payload. Ideal for plant movement.*
